About Me

I'm a recent computer science graduate with a strong foundation in Java, Python, and C++. I'm passionate about coding, problem-solving, and staying up-to-date with tech trends. Eager to learn and contribute, I bring an analytical mindset and attention to detail to software development. I'm excited to join a dynamic team, grow as a software engineer, and make a positive impact.

PROJECTS

PORTFOLIO WEBSITE
ReactJS, HTML, CSS

This is a website developed for personal showcase of what I am specialised in. And it is build using MERN Stack and it has a much more responsive design which can adapt to different devices. It has some UI/UX elements which can interact with the users.

Music Streaming Website
ReactJS, Supabase, PostgreSQL, Tailwind, NextJS, Stripe
Used ReactJS on the frontend side and used PostgreSQL as a database and has used Supabase as a hosting platform which is an open source alternative of Firebase. Has separate liked songs menu, artists menu and it works as a online audio streaming platform.

Simple Exercise Log Website
MongoDB, ReactJS, HTML, CSS, NodeJS

It records the log of every exercise which is made day by day and can have many users record. Used mongoDB, NodeJS on the backend and React, ExpressJS on the frontend.
